### **Orchid Communications Environmental Declaration**

Orchid Communications is committed to reducing the environmental impacts caused by the day to day activities of the business. We will work to improve the environmental impact of our organisation by following the below principles:

1. We will comply with the requirements of environmental legislation and approved codes of practice
2. We will aim to improve overall environmental performance
3. We will continue to research best practice to improve our environmental performance
4. We will promote Eco-Active Business to existing and potential clients and work closely with Eco-Active Business to the benefit of all organisations
5. We will assist clients to work in an environmentally sympathetic way
6. We will increase awareness, encourage participation and train employees in environmental matters
7. We will participate in discussions and events about environmental issues
8. We will increase paper and plastic recycling and reduce the amount of wastage
9. We will encourage positive environmental standards from all suppliers and contractors
10. We will aim to introduce 'green' stationery to our business
